Introduction

This document contains the codified statutory and administrative (regulatory) law citations for the Bridging the Gap state school wellness-related law data posted on www.bridgingthegapresearch.org. The citations in this document are specific to laws coded effective as of the beginning of school year 2011-2012 (year 6). The day after Labor Day was used as a proxy for the first day of the school year to enable consistent coding across all states. Additional documents on the website contain the data files as well as a detailed codebook describing each variable. All laws were obtained by Bridging the Gap researchers through primary legal research using Boolean keyword searches of the state law databases in commercially-available legal research services, Westlaw and Lexis-Nexis.

Citations in this document related to competitive foods and beverages may also be used in conjunction with Bridging the Gap's interactive state snack food and beverage law website, <http://foods.bridgingthegapresearch.org>.

The following categories of codified laws are presented herein. The abbreviations in parentheses following each category represents the corresponding categories of state law variables in the abovementioned data set and codebooks.
